

Hamilton-Oshawa Port Authority

Consolidated Financial Statements
December 31, 2021
(expressed in Canadian dollars)

Independent auditor's report

To the Board of Directors of Hamilton-Oshawa Port Authority

Our opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Hamilton-Oshawa Port Authority and its subsidiary (together, the Authority) as at December 31, 2021 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

What we have audited

The Authority's consolidated financial statements comprise:

- the consolidated statement of financial position as at December 31, 2021;
- the consolidated statement of income and comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Authority in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

PricewaterhouseCoopers LLP
200 Apple Mill Road, Vaughan, Ontario, Canada L4K 0J8
T: +1 905 326 6800, F: +1 905 326 5339

PwC refers to PricewaterhouseCoopers LLP, an Ontario limited liability partnership.

In preparing the consolidated financial statements, management is responsible for assessing the Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Authority or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Authority's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Authority's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Authority to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Authority to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

1 Nature of operations

Hamilton-Oshawa Port Authority (the Authority) operates pursuant to the Canada Marine Act and in accordance with the Letters Patent issued by the Federal Minister of Transport.

The Authority is a non-share capital corporation established under an act of federal parliament. The address of its registered office is 605 James Street North, Hamilton, Ontario, Canada.

The Authority, managed by a seven-member Board of Directors, operates on a commercial basis and is mandated to be financially self-sufficient. It is engaged to develop the Ports of Hamilton and Oshawa commercial operations, including harbour operations, port security, land use planning and maintenance. The Authority also supports the recreational use of the Hamilton harbour through its marina operations and launch ramp facility.

2 Basis of presentation and statement of compliance

The Authority prepares its consolidated financial statements in accordance with International Financial Reporting Standards (IFRS) as defined in Part I of the Chartered Professional Accountants of Canada Handbook.

The preparation of consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Authority's accounting policies. The areas involving a higher degree of judgment or complexity or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 4.

The consolidated financial statements were authorized for issuance by the Board of Directors on February 23, 2022.

The currency of presentation for these consolidated financial statements is the Canadian dollar, which is also the functional currency of the Authority.

3 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of accounting

The consolidated financial statements have been prepared under the historical cost convention.

Basis of consolidation

The consolidated financial statements include the accounts of the Authority and its wholly owned subsidiary, Great Lakes Port Management Inc. (GLPM). GLPM is fully consolidated and all significant intercompany accounts and transactions have been eliminated on consolidation.

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held with banks and short-term investments that are immediately callable held by major financial institutions. Cash and cash equivalents are classified as current assets and are classified as financial assets at amortized cost.

Trade receivables

Trade receivables are amounts due from customers in the ordinary course of business where collection is expected in one year or less. Accounts receivable are classified as current assets and are measured at amortized cost.

Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted average method. Inventories include supplies used in the Authority's operations.

Property and equipment

Property and equipment include land, berthing structures, buildings, utilities, equipment, office furniture and equipment and roads and surfaces. Property and equipment are stated at acquisition cost less accumulated depreciation. Cost includes expenditures that are directly attributable to the acquisition of the asset. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Authority and the cost can be measured reliably. Repairs and maintenance costs are charged to the consolidated statement of income and comprehensive income during the period in which they are incurred.

Land is not depreciated. Depreciation on other assets is calculated using the straight-line method, commencing in the year the asset becomes operational, to allocate the cost over their useful lives. The major classes of property and equipment are depreciated as follows:

Berthing structures	2 – 10%
Buildings	4 – 10%
Utilities	5 – 10%
Roads and surfaces	5 – 10%
Equipment	5 – 20%
Office furniture and equipment	10 – 33.3%

The Authority allocates the amount initially recognized in respect of an item of property and equipment to its significant parts and depreciates separately each such part. The carrying amount of a replaced part is derecognized when replaced. Residual values, method of depreciation and useful lives of the assets are reviewed annually and adjusted if appropriate.

Gains and losses on disposal of property and equipment are determined by comparing the proceeds with the carrying amount of the asset and are included in the consolidated statement of income and comprehensive income in the period of disposal.

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

Government contributions representing funding and assistance received related to capitalized property and equipment are netted against the related additions. The additions net of the government contributions are amortized to income.

Impairment of non-financial assets

Property and equipment are tested for impairment whenever events or changes in circumstances indicate the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units). Cash generating units that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

The Authority evaluates impairment losses for potential reversals whenever events or circumstances warrant such consideration.

Trade and other payables

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are classified as current liabilities if payment is due within one year or less. Trade and other payables are recognized initially at fair value.

Provisions

Provisions are recognized when the Authority has a present obligation, legal or constructive, as a result of a past event, and it is probable the Authority will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the consolidated statement of financial position date, taking into account the risks and uncertainties surrounding the obligation, and is discounted where the effect is material.

Revenue recognition

Operating lease revenue is recognized on a straight-line basis over the period of the lease. Rent revenue recognized in excess of rent invoices is classified as straight-line rent receivable on the consolidated statement of financial position.

The Authority separately discloses other revenue from tenants in note 10, included in piers and property revenue, which consists of non-lease components within lease arrangements arising from the recovery of certain operating expenses from tenants, which are accounted for in accordance with IFRS 15, Revenue from Contracts with Customers. Other revenue from tenants is recognized when the Authority has satisfied its performance obligation by delivering services as agreed upon in the lease agreements to tenants at an amount equal to the component of revenue allocated to such performance obligation.

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

Harbour revenue includes revenue from wharfage and harbour dues and is recognized as the performance obligation is satisfied at a point in time. Marina revenue includes revenue from slip rentals and boat storage and is recognized as the performance obligation is satisfied over time. GLPM revenue includes management fees and is recognized as the performance obligation is satisfied over time.

Deferred revenue

Deferred revenue comprises payments received in advance from customers, which are recognized into revenue over the life of the relevant lease or service period.

Contributed surplus

The Authority was incorporated without share capital. Assets gifted to or expropriated from the Authority by the Government of Canada are treated as increases to and reductions of contributed surplus, respectively.

Employee benefits

The Authority has three pension plans. For employees hired before July 1, 2011, a defined benefit plan and a supplemental executive retirement plan exist, and for employees hired after July 1, 2011, a defined contribution plan is available.

The costs of pension and other retirement benefits earned by employees are actuarially determined using the projected benefits method, pro-rated on service and using management's best estimate assumptions reflecting salary escalation, retirement ages of members, expected health-care costs and other actuarial factors. The pension payable to an employee is based on length of service and average earnings. Under the defined contribution plan, employees may contribute certain amounts annually with the Authority subject to regulated limitations.

The liability recognized in the consolidated statement of financial position in respect of the defined benefit pension plan is the present value of the defined benefit obligation at the end of the reporting period, less the fair value of the plan assets, together with the adjustments for unrecognized past-service costs. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high quality corporate bonds that are denominated in the currency in which the benefit will be paid and have terms to maturity approximating the terms of the related pension liability. The liability recognized in the consolidated statement of financial position for the registered pension plan also considers the minimum funding requirements as per the limit required per paragraph 64 of International Accounting Standard (IAS) 19, Employee Benefits.

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

Actuarial gains and losses are recognized in full in the period in which they occur, in other comprehensive income, without recycling to the consolidated statement of income and comprehensive income in subsequent periods. Amounts recognized in other comprehensive income are recognized immediately in accumulated other comprehensive income (loss). Current service cost, the recognized element of any past-service cost and the interest expense arising on the pension liability are included in the same line items in the consolidated statement of income and comprehensive income as the related compensation cost. Past-service costs are recognized immediately into earnings to the extent the benefits are vested and otherwise are amortized on a straight-line basis over the average period until the benefits become vested.

The cost of the defined contribution pension plan is charged to wages and other employment benefit expenses as the contributions become payable.

Payments in lieu of municipal taxes

Payments in lieu of municipal taxes are based on municipal assessments adjusted in accordance with the Federal Payments in Lieu Act. This amount is included in operating expenses in the consolidated statement of income and comprehensive income.

In accordance with a settlement agreement between Transport Canada, the Oshawa Port Authority (continued as the Authority) and the City of Oshawa dated July 15, 2010, the City of Oshawa agreed to waive annual payments in lieu of taxes through to January 25, 2027.

Federal stipend

In order to maintain its letters patent in good standing, the Authority is required to annually pay to Transport Canada a charge on gross revenue, which is calculated as follows:

Gross revenue	Charge
Up to \$10,000,000	2%
On the next \$10,000,000	4%
On the next \$40,000,000	6%
On the next \$10,000,000	4%
Over \$70,000,000	2%

This amount is included in operating expenses in the consolidated statement of income and comprehensive income.

Income taxes

The Authority is exempt from income taxes under Section 149(1)(d) of the Income Tax Act (Canada).

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

Financial instruments

Financial assets and liabilities are recognized when the Authority becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the rights to receive cash flows from the assets have expired or have been transferred and the Authority has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognized when the obligation specified in the contract is discharged, cancelled or expires.

- Classification

The Authority classifies its financial instruments in the following categories:

- those to be measured subsequently at fair value (either through other comprehensive income or through profit or loss); and
- those to be measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

The Authority does not currently have any assets measured subsequently at fair value.

- Initial and subsequent recognition

- Financial assets at amortized cost

Financial assets at amortized cost include cash and cash equivalents and trade and other receivables. At initial recognition, the Authority measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Subsequently, cash and cash equivalents and trade and other receivables are measured at amortized cost using the effective interest method. Trade and other receivables are classified as current assets if payment is due within 12 months. Otherwise, they are represented as non-current assets.

- Financial liabilities at amortized cost

Financial liabilities at amortized cost include trade and other payables. At initial recognition, the Authority measures the financial liability at the amount required to be paid less, when material, a discount to reduce the payables to fair value. Subsequently, trade and other payables are measured at amortized cost using the effective interest method. Trade and other payables are classified as current liabilities if payment is due within 12 months. Otherwise, they are represented as non-current liabilities.

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

- Impairment

The Authority assesses on a forward-looking basis the expected credit losses associated with its financial assets carried at amortized cost. For trade and other receivables, the Authority applies the simplified approach permitted by IFRS 9, Financial Instruments, which requires lifetime expected credit losses to be recognized at the time of initial recognition of the receivables. Lifetime expected credit losses represent the expected credit losses that will result from all possible default events over the expected life of a financial instrument. To measure the expected credit losses, trade and other receivables have been grouped based on shared credit risk characteristics and the days past due. Impairment losses on financial assets carried at amortized cost are reversed in subsequent periods if the amount of the loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized.

Trade and other receivables are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, significant financial difficulty of the obligor, delinquencies in payments and when it becomes probable the borrower will enter bankruptcy or other financial reorganization.

4 Critical accounting estimates and judgments

The preparation of consolidated financial statements requires management to use judgment in applying its accounting policies and estimates and assumptions about the future. The actual outcome may differ from these judgments, estimates and assumptions. Estimates and other judgments are continually evaluated and are based on management's experience and other factors, including expectations about future events that are believed to be reasonable under the circumstances. The following discusses the most significant accounting judgments and estimates that the Authority has made in the preparation of the consolidated financial statements.

Significant judgments, estimates and assumptions – COVID-19

In March 2020, the World Health Organization characterized the outbreak of the novel strain of coronavirus, specifically identified as "COVID-19", as a global pandemic. The COVID-19 pandemic has resulted in organizations and governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to many businesses globally resulting in an economic slowdown. Global markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions.

There is significant uncertainty as to the likely effects of this outbreak, which may, among other things, impact the Authority's workforce, customers and supply chain. Given the rapidly evolving situation, it is not possible to predict the duration of the outbreak's disruption and the extent of the financial impact, which could be material, on the future consolidated financial statements.

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

Notwithstanding this, the Authority's management has evaluated the potential impact on its consolidated financial statements, which were evaluated for possible impact as at December 31, 2021.

- Trade and other receivables

Expected credit losses on these balances were reassessed using new assumptions.

- Accrued pension benefit and other post-employment benefit liabilities

The key assumptions were reassessed by management and the Authority's actuaries in the determination of these liabilities at year-end.

- Impairment of non-financial assets

Management has considered the impact of COVID-19 in assessing whether a triggering event has occurred with respect to the Authority's impairment analysis of non-financial assets. Management has determined that a triggering event did not occur during the year; however, the duration and severity of the COVID-19 pandemic could result in future impairment charges or material changes to those assumptions.

Based on the additional evaluations undertaken at December 31, 2021 above, management has incorporated any related changes in these consolidated financial statements.

Provisions and employee benefit obligations

Due to the nature of employee benefit obligations, a considerable part of their determination is based on estimates and/or judgments, including assumptions concerning the future. The actual outcome of these uncertain factors may be materially different from the estimates, causing differences with the estimated obligations. Hence, the differences between actual outcomes and the recorded obligations can impact results over the periods involved. The timing of outflow of resources to settle these obligations is subject to the same uncertain factors. For the sensitivity of employee benefit obligations, refer to note 9. Each sensitivity analysis included in note 9 is based on changing one assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to variations in significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as for calculating the liability recognized in the consolidated statement of financial position.

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

In the case of the funded plans, the Authority ensures the investment positions are managed within an asset liability matching (ALM) framework that has been developed to achieve long-term investments that are in line with the obligations under the pension plans. Within this framework, the Authority's ALM objective is to match assets to the pension obligations by investing in long-term fixed interest securities with maturities that match the benefit payments as they fall due and in the appropriate currency. The Authority actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the pension obligations. The Authority has not changed the processes used to manage its risks from previous periods. The Authority does not use derivatives to manage its risk. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets. A large portion of assets in 2021 consists of equities and bonds. The Authority believes equities offer the best returns over the long term with an acceptable level of risk. The plans are not exposed to significant foreign currency risk.

The Authority continues to advance the Randle Reef Sediment Remediation Project (the Project) in partnership with Environment Canada, the Ontario Ministry of the Environment, the City of Hamilton, the City of Burlington and US Steel Canada. In September 2013, an important milestone was reached with the partners announcing that all legal agreements to fund and implement the Project had been executed. A project contractor commenced in 2015 to enable the construction of the contain-and-cap facility. To date, \$6.6 million has been contributed by the Authority and is reflected in capital development-in-progress within property and equipment. A cash commitment of approximately \$0.54 million was made in 2021.

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

Included within purchases of property and equipment during the fiscal year are approximately \$1.9 million (2020 – \$2.5 million) of additions that have not yet been paid for.

During 2019, the Authority received approval for a grant for the Westport Modernization Project from the Government of Canada of not more than 50% of eligible capital expenditures incurred before December 31, 2021, up to a maximum grant of \$17.725 million. In 2021, the Authority claimed eligible capital expenditures of \$2.4 million (2020 – \$10.5 million). The eligible capital expenditures are recorded in property and equipment net of the reimbursement received. As of December 31, 2021, the Authority has received the full amount of the grant.

8 Trade and other payables

	2021 \$	2020 \$
Trade payables	8,081,402	7,526,487

Security deposits	2,624,335	2,358,241
	<u>16,078,140</u>	<u>17,325,635</u>

9 Employee benefits

The Authority has a defined benefit pension plan (pension benefit plan), a supplemental executive retirement plan (SERP), a non-pension post-retirement benefit plan (other benefit plan) and a defined contribution plan. Certain information with respect to these plans is provided below.

The Authority operates defined benefit pension plans in Canada based on employee pensionable earnings and length of service. The pension benefit plan was closed to new members effective June 30, 2011.

The majority of benefit payments are from trustee administered funds; however, there is also an unfunded plan where the Authority meets the benefit payment obligation as it falls due. Plan assets held in trusts are governed by local regulations and practice. Responsibility for governance of the plans and overseeing all aspects of the plans, including investment decisions and contribution schedules, lies with the Authority. The Authority has set up a Pension Committee to assist in the management of the plans and has also appointed experienced, independent professional experts, such as investment managers, actuaries, custodians and trustees.

(expressed in Canadian dollars)

The amounts recognized in other comprehensive income (loss) are as follows:

	<u>Pension benefit plan and SERP</u>		<u>Other benefit plan</u>	
	2021 \$	2020 \$	2021 \$	2020 \$
Actual return on plan assets less interest cost	752,181	1,055,656	-	-
Actuarial loss on benefit obligations	(56,823)	(726,545)	-	(24,100)
Gain (loss) from change in financial assumptions	1,710,044	(1,831,134)	38,800	(47,000)
Other comprehensive income (loss)	<u>2,405,402</u>	<u>(1,502,023)</u>	<u>38,800</u>	<u>(71,100)</u>

The principal actuarial assumptions are as follows:

	<u>Pension benefit plan and SERP</u>		<u>Other benefit plan</u>	
	2021 %	2020 %	2021 %	2020 %
Defined benefit obligation as at December 31				
Discount rate	3.0	2.6	3.0	2.6
Future salary increases	3.5	3.5	n/a	n/a
Benefit costs for years ended December 31				
Discount rate	3.0	2.6	3.0	2.6
Future salary increases	3.5	3.5	n/a	n/a

The sensitivity of the defined benefit obligation to changes in assumptions is set out below. The effects on each plan of a change in an assumption are weighted proportionately to the total plan obligations to determine the total impact for each assumption presented.

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

A sensitivity analysis of the Authority's defined benefit pension plans is as follows:

	<u>Impact on pension benefit plan and SERP</u>		<u>Impact on other benefit plan</u>	
	<u>Increase in assumption</u> %	<u>Decrease in assumption</u> %	<u>Increase in assumption</u> %	<u>Decrease in assumption</u> %
0.5% change in discount rate	(7.6)	8.5	(7.7)	8.8
0.5% change in salary growth rate	1.9	(1.8)	n/a	n/a
0.5% change in life expectancy	(1.1)	1.1	(0.8)	0.8

Expected contributions to pension benefit plans for the year ended December 31, 2022 are \$935,920. As at December 31, 2021, the accumulated actuarial losses recognized in accumulated other comprehensive loss were \$3,220,541 (2020 – \$5,664,743).

The Authority's actuary prepares annual valuations of the plans' assets and accrued benefit obligations using January 1 as a measurement date and extrapolating to December 31. The most recent valuations of the pension benefit plan and supplementary plan for funding purposes were conducted as at December 31, 2020. The next valuations of these plans for funding purposes will be as at December 31, 2021.

Through its defined benefit plans, the Authority is exposed to a number of risks, the most significant of which are detailed below.

Asset volatility

The plan liabilities are calculated using a discount rate set with reference to corporate bond yields; if plan assets underperform, a deficit will be created. The plans hold a significant proportion of equities, which are expected to outperform corporate bonds in the long term while contributing volatility and risk in the short term.

As the plans mature, the Authority intends to reduce the level of investment risk by investing more in assets that better match the liabilities.

However, the Authority believes that due to the long-term nature of the plan liabilities and the strength of the supporting group, a level of continuing equity investment is an appropriate element of the Authority's long-term strategy to manage the plans efficiently.

Changes in bond yields

A decrease in corporate bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

Hamilton-Oshawa Port Authority
Notes to Consolidated Financial Statements
December 31, 2021

(expressed in Canadian dollars)

Inflation risk

The majority of the plans' benefit obligations are linked to inflation; higher inflation will lead to higher liabilities (although, in most cases, caps on the level of inflationary increases are in place to protect the plans against extreme inflation). The majority of the plans' assets are either unaffected by (fixed interest bonds) or loosely correlated with (equities) inflation, meaning that an increase in inflation will also increase the deficit.

Life expectancy

The majority of the plans' obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plans' liabilities.

The expected maturity analysis of the undiscounted pension plans is presented below:

	Less than a year \$	Between 1 and 2 years \$	Between 2 and 5 years \$	More than 5 years \$	Total \$
Pension benefit plan and SERP	758,800	740,500	2,456,800	55,807,500	59,763,600
Other benefit plan	20,800	20,900	63,500	1,362,000	1,467,200
As at December 31, 2021	<u>779,600</u>	<u>761,400</u>	<u>2,520,300</u>	<u>57,169,500</u>	<u>61,230,800</u>

Employer contributions to the defined contribution plan were as follows:

	2021 \$	2020 \$
Employer contributions	<u>141,366</u>	<u>121,213</u>

10 Port revenue

	2021 \$	2020 \$

Termination benefits paid in the year ended December 31, 2021 were \$292,360 (2020 – \$160,864).

Hamilton-Oshawa Port Authority
Notes to Consolidated Financial Statements
December 31, 2021

(expressed in Canadian dollars)

12 Contingencies and commitments

The Authority has contingent liabilities in respect of legal claims arising in the ordinary course of business. It is not anticipated that any material liabilities will arise from the contingent liabilities other than those provided for.

Operating leases – lessor

The future minimum lease payments to be received under non-cancellable operating leases are as follows:

	2021	2020
	\$	\$
No later than 1 year	20,202,395	18,734,217
Year 2	18,050,082	17,825,300
Year 3	16,577,418	15,365,883
Year 4	14,734,238	12,736,084
Year 5	11,416,148	11,197,991
Later than 5 years	62,352,430	69,913,303
	<u>143,332,711</u>	<u>145,772,778</u>

Operating leases – lessee

	2021	2020
	\$	\$
No later than 1 year	11,048	17,144
Later than 1 year and not later than 5 years	28,568	4,576
	<u>39,616</u>	<u>21,720</u>

Borrowing limit and credit facility

The Authority has an aggregate borrowing limit of \$45,500,000 (2020 – \$45,500,000). Borrowing is defined in section 9.3 of the Letters Patent.

The Authority has a \$7.5 million credit demand facility available, which has not been drawn on as at December 31, 2021.

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

13 Financial instruments

The carrying amounts of cash and cash equivalents, trade and other receivables and trade and other payables are recorded at carrying amounts, which approximate fair value.

Fair values, including valuation methods and assumptions

The following table summarizes the fair value of financial assets and liabilities as at December 31, 2021 and December 31, 2020:

	2021 \$	2020 \$
Assets		
Cash and cash equivalents	17,387,131	19,721,720
Trade and other receivables	4,129,606	2,381,341
Liabilities		
Trade and other payables	16,078,140	17,325,635

Market risk

- Foreign exchange risk

The Authority is not exposed to foreign exchange risk fluctuations.

- Price risk

The Authority is not exposed to price risk.

- Interest risk

The Authority's exposure to general levels of interest risk is limited to outstanding drawings on the demand credit facility.

- Interest rate risk

The Authority is not exposed to interest rate risk, as there are currently no significant borrowings drawn by the Authority.

Credit risk

The Authority's exposure to concentration of credit risk is limited. The Authority places its cash and cash equivalents and restricted cash with major Canadian financial institutions of high creditworthiness. Credit risk associated with trade and other receivables is minimized, as the Authority performs credit assessments for new customers, monitors the aging of trade and other receivables and contacts debtors regarding payment history. The maximum exposure to credit risk as at the reporting date is the carrying value of accounts receivable. The fair value of trade and other receivables and trade and other payables approximates their carrying value due to their short-term maturity.

Hamilton-Oshawa Port Authority

Notes to Consolidated Financial Statements

December 31, 2021

(expressed in Canadian dollars)

No financial assets are past due except for certain trade and current receivables. As at December 31, 2021, trade and other receivables of \$3,996,168 (2020 – \$2,056,836) were current, \$904,958 (2020 – \$302,677) were past due but not impaired and \$76,922 (2020 – \$117,559) were impaired. The aging analysis of the two categories of receivables is as follows:

	2021 \$	2020 \$
Trade and other receivables		
Current (less than 30 days)	3,091,211	2,056,836
Past due but not impaired (over 30 days)	904,958	302,677
Impaired	76,922	117,559
Past due but not impaired		
Up to 3 months	732,275	152,347
3 to 6 months	172,683	150,330
Impaired		
3 to 6 months	-	28,727
More than 6 months	76,922	88,832

The following table summarizes the changes in the allowance for doubtful accounts for trade receivables:

	2021 \$	2020 \$
Allowance for doubtful accounts		
Beginning of year	117,559	74,772
Provision	-	49,158
Accounts receivable written off during the year	(40,637)	(6,371)
End of year	<u>76,922</u>	<u>117,559</u>

Liquidity risk

Cash flow forecasting is performed to monitor the Authority's liquidity requirements to ensure it has sufficient cash to meet operational needs at all times.

Surplus cash held by the Authority over and above balances required for working capital management is invested in callable interest bearing short-term deposits with a maturity within 12 months, which are selected with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the above-mentioned forecasts.

As at the reporting date, the Authority held callable short-term deposits of \$16,935,007 (2020 – \$17,860,887) that are available to readily generate cash inflows for managing liquidity risk.

The Authority's financial liabilities consist of trade and other payables in the amount of \$4,087,753 (2020 – \$3,558,806), which have a contractual maturity of three months or less.

Hamilton-Oshawa Port Authority
Notes to Consolidated Financial Statements
December 31, 2021

(expressed in Canadian dollars)

14 Capital management

The Authority manages its capital and credit facility availability to ensure the Authority has adequate financial structure and borrowing capacity to allow for financial flexibility and sufficient liquidity. This may require the Authority to establish new credit facilities as needed. The Authority monitors its generation of cash from operations and available credit as part of its overall assessment.
